EDUCATION

Applied Science Private University

Mar 2023 – Present

Bachelor's in Computer Science · Grade: Good

TRAINING

FUNDEV X with AI — Full-Stack Mobile Development Bootcamp

Enrolled, 2026

Coders Academy — Amman

Intensive, project-based bootcamp covering backend APIs, secure authentication, real-time features, and end-to-end Flutter mobile development, closing with a published capstone app.

- Building RESTful APIs with ASP.NET Core, SQL Server, and Entity Framework Core — CRUD, relationships, and migrations
- Securing APIs with JWT authentication and role-based permissions; real-time features with SignalR and WebSockets
- Flutter and Dart for responsive, professional mobile apps with state management, securely connected to the backend
- Push notifications, Google Maps, camera, and device features; packaging and publishing to Android and iOS
- Using AI tools to speed up writing, refining, testing, and documenting code

PROJECTS

Able+

Feb 2026 – Jun 2026

Graduation Project | Team Lead

Led the project team in developing a mobile application to help people with disabilities.

Built the application using Flutter, Dart, ASP.NET, and Supabase for the database. Managed team tasks, coordinated project progress, and contributed to front-end development and UI design.

ElderlyMed Devices and Supplies

Jun 2025 – Nov 2025

Developed a full-stack website for medical devices and supplies.

Built user interfaces and connected the website with database functionality.

- Full-Stack Website Development

Travel Company Website

Aug 2024 – Sep 2025

Developed a travel company website with pages for services, destinations, and customer information.

Implemented front-end pages and database-related features. Improved website structure and user experience.

- Full-Stack Website Development

Travel Company App

Jul 2025 – Sep 2025

Built a mobile application using Flutter for a travel company.

Designed screens and application navigation, focused on responsive design and a simple user experience.

- Flutter mobile application

LANGUAGES

Arabic (Native) · English (Very Good)

CORE SKILLS

Programming Languages: Java, C++, JavaScript

Mobile Development: Flutter, Dart

Other Skills: Full-Stack Development, Data Analysis

Web Development: HTML, CSS, ASP.NET

Databases: SQL, Database Design

Tools: Git, GitHub, Visual Studio, VS Code

CERTIFICATES

Cloud Foundations — AWS Academy

Apr 2026

Data Analysis — Cisco

Sep 2025

Data Engineering — AWS Academy

Jul 2026

Azure Fundamentals — Microsoft

May 2026
